

ROSS THE NEW ARTIFICIAL INTELLIGENCE FOR ATTORNEYS

Ross is known as the world's first known Artificially Intelligent Attorney, and his firm possesses their first official law firm. "Baker & Hostetler" has announced that their firm will be providing an employment option for Ross upon their bankruptcy practice, which is currently holding another 50 attorneys'.

The well-known and highly reputable artificial attorney, Ross, has been built upon the IBM's Cognitive Computer "[Watson](#)". Ross was devised in order to read and interpret languages, populate hypotheses questionings upon asked, research, as well as perfectly generating a response with proper references and even citations to provide facts upon the statements. Ross possess the same ability to be able to learn from hands-on experience, thus providing faster speeds and more knowledge the more you interact with it.

The logo for BakerHostetler is displayed in a red, sans-serif font on a metallic, rectangular sign. The sign is mounted on a dark wood-paneled wall. To the right of the sign, there are three vertical rectangular panels: the top and bottom ones show green foliage, and the middle one is white.

You are able to simply ask Ross your question in plain clear English, much like you would ask that of your colleague. Ross will then continue to process this question by searching through the entire body of law. Then proceeds onto prescribing you with your answer, which comes complete with topical readings from different legislation. Ross also provides you with case law and secondary sources in order to get you up-to-speed more quickly. According the [Ross website](#), Ross will also monitor the law 24/7 and provide you with any new court decisions in which may affect your case.

Ross will also assist in minimizing your time by providing an extremely narrow results from the library of thousands of files, directly down to the most highly effect and most relevant answers. Then proceeds onto pushing the answers in a more human-like approach. With understandable

language, Ross can also keep you up-to-date with known developments upon the legal system, and more specifically those that has any effects upon your case(s).

The large attorney firm, Baker & Hostetler, has in fact utilizing the Ross system since the initial launch of the early days of development. They are continuously growing and are a proud supporter and partner with a known true leader inside of the industry.

Below is a video in which explains more details of the “ROSS” program, and what will you do with Watson?
